EXPERIENCE

Developer + Designer @ Sathya Ram Freelance

March 2020 - Present // Arlington, VA

- + Freelance business - I consult on web development, and interface design by working closely with the client for an end-to-end experience
- + Crafting accessible, dynamic, and responsive interfaces with HTML, CSS, and JavaScript while integrating and working with content management systems and e-commerce platforms, such as WordPress, Grav and Gatsby
- + Designing stunning, user-driven web designs, graphics and interfaces in Adobe XD, Figma, InVision, Photoshop, & Illustrator for a variety of clients
- + Examples of my recent works can be found on sathyaram.com.

Front-End Developer @ Forum One

January 2019 - February 2020 // Alexandria, VA

- + Building websites and applications using PHP, HTML, SASS/CSS, JavaScript, jQuery and content management software (Drupal 7-8, WordPress, Grav)
- + Creating accessible, dynamic, and responsive interfaces with HTML, CSS,
- + Collaborating in the development of websites and web-based applications using Agile methodology and tools like Git and Jira
- + Built six websites from scratch that successfully launched, including a large medical research institute, state governments, and non-profit organizations
- + Made significant design and development enhancements to over 10 websites, including major national and international non-profits

Senior Web Developer (Portal) @ Lehigh University

December 2016 - July 2018 // Bethlehem, PA

- + Designed and maintained the Lehigh Campus Portal built on Ellucian's Luminis Platform
- + Developed and designed college/department level Drupal 7 websites with SASS, PHP, HTML5, and Javascript
- + Designed and developed current Lehigh Drupal 7 theme which is currently used by 50+ sites across the university
- + Provided design work and internal design consulting while interfacing with a variety of clients and maintained relationships

Web Developer @ Weidenhammer Creative

June 2016 - November 2016 // Allentown, PA

- + Developed responsive custom WordPress themes with HTML5, CSS/SASS, PHP and jQuery, while building and configuring WordPress websites
- + Maintained client relationships for production websites, while providing website support for clients
- + Built three large-scale, high-traffic WordPress websites with a variety of styled components and custom fields that successfully launched
